- Natural Language Processing
- UI Design
- API with AI & it's uses
- Web Development
- Problem Solving Software development

EDUCATION

Bachelor of Technology

Allenhurst Institute of Technology
CSE (7.5) 2022 - 2026

Secondary and Intermediate Education

- PGGIC- 10th (93.33%) 2018 - 2020
- PGGIC- 12th (77.0%) 2020 - 2022

PROFILE (Summary)

I am a final-year B.Tech (CSE) student with solid expertise in the Full_stack and practical experience of AI-powered tools for creating impactful educational content and professional presentations. My passion lies in building intuitive web applications and sharpening problem-solving skills through Data Structures and Algorithms (DSA). Alongside technical proficiency, I enjoy blending creativity with technology to deliver solutions .

PROJECTS

E-Cube

- Designed and deployed a BGMI e-sports platform where users can showcase skills and monetize gameplay .
- Developed using HTML, CSS and JavaScript Bootstrap .
- Improved user experience with responsive design and dynamic DOM manipulation .

Portfolio

- Developed a responsive personal portfolio website using HTML, CSS, and JavaScript, optimized for all devices .
- Implemented interactive UI components with clean, reusable code .
- Focused on performance and accessibility, ensuring fast load times and user-friendly design across browsers .

School Website

- Led digital transformation initiative, focusing on accessibility, user-friendly navigation, and scalable design for future updates .
- Created branded content and respectful faculty tributes .
- Designed and developed a responsive static school website using HTML, CSS, and JavaScript, ensuring smooth performance across devices .

Easy Rent (RentX)

- Developed RentX, a full-stack web application with responsive UI using HTML, CSS, Bootstrap .
- Built RESTful APIs and integrated frontend with backend for seamless performance.
- Focused on scalability, clean code practices, and user-friendly design.
- Implemented dynamic features for property listings, user authentication, and booking management.

Automated File Extraction Tool

- Developed a Python program to recursively scan nested folders (including zip archives and normal directories).
- Extracted images of any format (JPG, PNG, GIF, etc.) from multiple subfolders and consolidated them into a single organized folder.
- Implemented error handling and optimized file traversal for large directory structures.
- Improved efficiency by automating manual search and copy tasks, saving significant time in handling bulk image datasets.

ACHIEVEMENTS

- Got 5th place in Kanpur and 13th place in State (UP) in UP board Highschool examination.
- E-Cube :- Held 50+ matches and more then 500 players are get in touch and get prizes (Money) .
- Tech Head, Kashi Welfare Society — leading digital transformation and volunteer training initiatives.

Training Exeprience

- **Atharv Global InfoTech Pvt Ltd (Training)**
Junior Asst. Front end Developer 01/07/2025 - 30/08/2025
- **Escalify Partner LLP (Enternship)**
Asst. Web Developer 15/09/2025 - 15/11/2025
- Done multiple courses and got certificates from Infosys, IIT Bombay etc.
